team & player development

- We strive to develop athletes in Body, Mind and Soul.
- We believe in showing respect and love for our teammates AND our opponents, which is why we give every opponent an MVO Award at the conclusion of each game.
- We believe that in order to grow, players need to be trained in an environment where mistakes are simply part of the learning process, not something to be feared or punished for. We teach players the value of encouraging their teammates in both successes and failures.
- We believe that the church community exists outside of the four walls. We believe that our teams are part of a player's church community. As such, our goal is to help our players develop strong, Godly friendships that will last beyond the volleyball season - hopefully a lifetime.
- Unfortunately some tourneys are on Sundays, this is beyond our control. During these times, we excuse players if they need to leave early or arrive late and we encourage our athletes who miss church to do devotions with their teams.
- We believe the ideal team consists of 10-12 players

coach expectations

“A coach will impact more young people in a year than the average person does in a lifetime.”

team communication

We understand that life is busy and unpredictable, so creating an avenue for reliable and consistent team communication is our top priority. We are always searching for ways to improve our team communication and in that effort, this year we have selected BAND as our preferred app for team communication.

Each team will have their own BAND TEAM PAGE for easy collaboration between coaches and families. This app allows for posting, commenting and chatting. All team news, updates and announcements will flow through the BAND app.
